West Hillhurst Community Association Meeting

Site Context

Policy

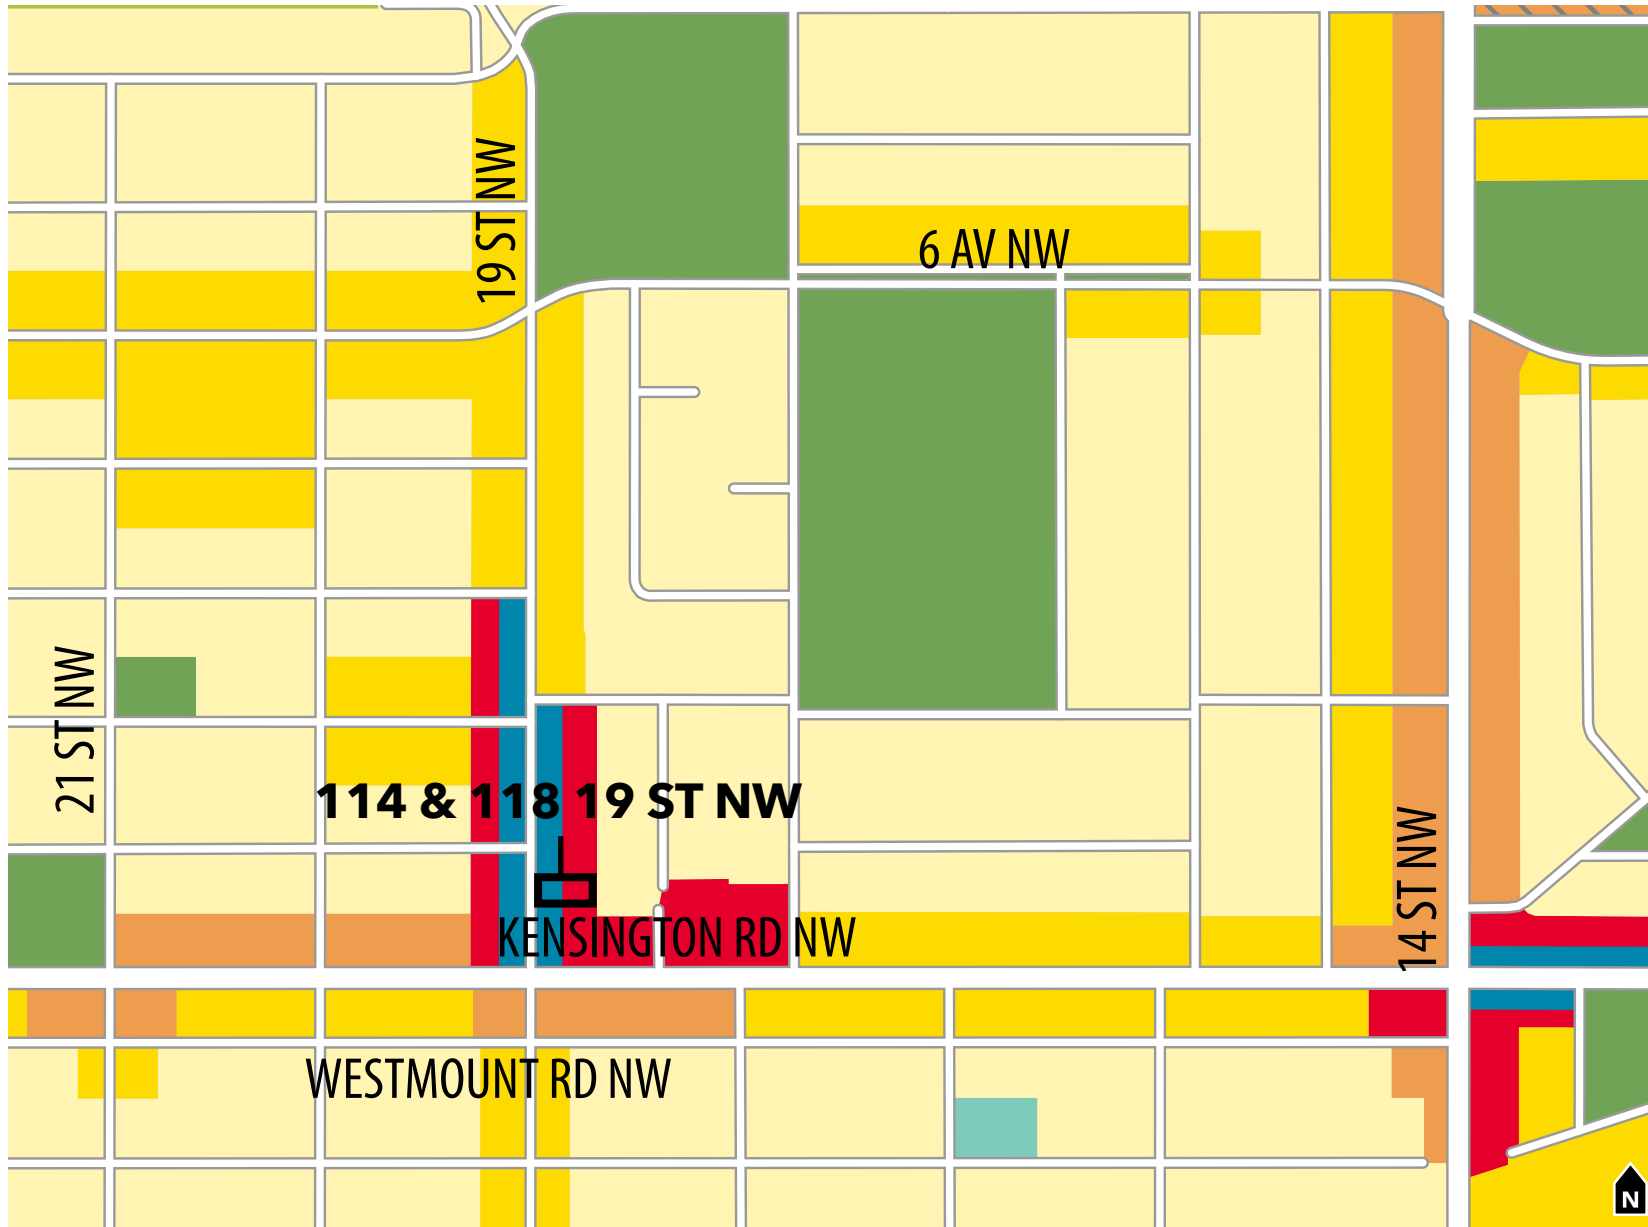

The project site is located within the City of Calgary community of West Hillhurst, which **does not currently have a Local Area Plan (LAP) in place** to provide development guidance for the WH11 site.

The Riley Communities LAP which will eventually apply to West Hillhurst (estimated 2024) is currently in draft form. The initial draft (subject to change) identifies the subject site and 19 ST NW corridor between Kensington RD NW and 5 AV NW as **a potential focus area for growth within the plan area.**

In the absence of an LAP, the project team looks to contemporary higher order plans like the MDP and CTP, which **generally support the development of new inner city grade oriented housing options close to transit service and Main Street corridors.**
